

# Explore Down Jersey's Natural World

The wayside exhibits along the WheatonArts Trail offer some insights into the natural world. Each sign also lists ways you can help support plants and animals in order to enhance their welfare as well as protect our environment. The trail offers samples of some of our region's natural environments and their inhabitants. We hope the trail will act as a springboard, enticing you to expand your visit for a weekend or to enjoy our region's many natural areas for a lifetime. The map below shows the rich variety of nearby public lands that you can explore.

East Point Lighthouse

Turkey Point WMA

Peek Preserve Seen from Maurice River Bluffs

Bass Fishing on Local Rivers and Lakes

Fall Foliage, Maurice River

Horseshoe Crabs - NJ's Delaware Bayshore

Watching Wildlife

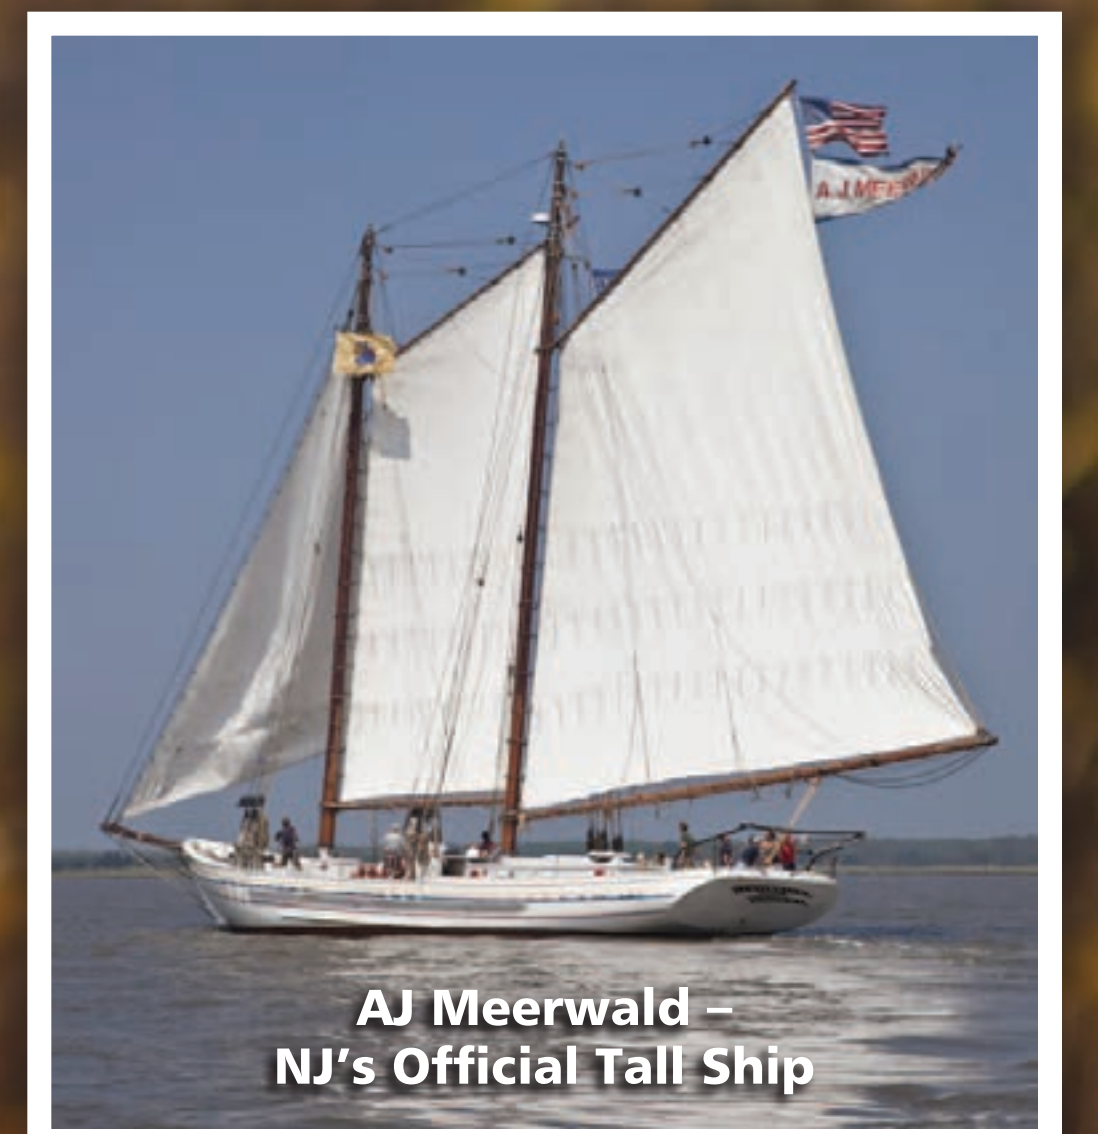

Many Local Rivers

Paddling Opportunities Abound

May Shorebird Migration - NJ's Delaware Bayshore

AJ Meerwald - NJ's Official Tall Ship

For details and maps on local trails consult NJ Audubon's online Birding & Wildlife Delaware Bayshore Trails: <http://www.njwildlifetrails.org/DelawareBayshoreTrails/Trails.aspx>
